SUMMARY

Aspiring DevOps Engineer with a solid foundation in cloud computing and containerization. Recently gaining hands-on experience with AWS, Docker, Kubernetes, and Jenkins. I am ready to bring my technical skills and fresh insights to a forward-thinking tech team.

TECHNICAL SKILLS

HTML & CSS & Python :
- Knowledge on HTML,CSS and Python.

Aws:
- Currently building foundational knowledge in cloud services and infrastructure management using AWS.

Git & GitHub & Linux Commands:
- Gaining proficiency in version control, branching, and collaboration using Git and GitHub.
- Actively learning and practicing Linux command-line operations and related tools.

Terraform & Jenkins & Docker:
- Learning the basics of CI/CD pipelines and automation using Jenkins.
- Familiarizing with infrastructure as code (IaC) concepts using Terraform for cloud resource provisioning.
- Gaining proficiency in containerization and managing containers using Docker.

PROJECT

CUSTOM OS
- Developed a Custom Operating System project emphasizing innovative design and
- functionality.
- Aim to integrate the custom OS into practical applications, ensuring seamless compatibility and
- user-friendly experiences.
- I have worked in UI and customizing app part.

EDUCATION

Misrimal Navajee Munoth Jain Engineering College   Jun 2020 - Jul 2024

Affliated to anna university
- Bachelor's in Computer Science and Engineering.
- Cgpa : 8.00 %.

Anna Gem School – Anna University Campus,Chennai   Aug 2019 - Mar 2020

- HSLC(12th Standard) Board Exanimation
- 52.67 %.

ADDITIONAL INFORMATION

- **Languages:** English,Tamil.
- **Certifications:** Attended java workshop in MIT, Completed HTML , CSS and in Udmey, Completed CICD by infosys springboard
- **Awards/Activities:** Won medals at MNMJE College for winning 1st and 2nd place in the Cricket,Basketball and Football team.
